Dear Mike Peterson;

I highly recommend Frontline Processing. I had been in a long term contract that I wasn't able to get out of; was paying high fees; had a terminal lease I couldn't get out of, Mike came over and visited with us several times and always showed the patience with us. Once our contract was up I immediately called Frontline Processing and Mike came over and set us up without a hitch. Everything they have said they will do they have done. Mike has always been available and also helped us get out of the long lease deal we were seemingly stuck with. We can call Frontline Processing and get immediate help which isn't often but nice to know they are there when we need them. I highly recommend Frontline Processing.

Sincerely,

A handwritten signature in black ink that reads "Joan Grogan". The signature is written in a cursive, flowing style.

Joan Grogan
