Re: Letter of Reference

Dear Genna:

Our firm has been a merchant customer of Frontline Processing since June 2012. We were also a customer under a different entity from 2008 – 2012. When we formed a new entity last year the transition was very smooth and the representative was most helpful.

Frontline's customer service has always been excellent and I have always felt it was a good company to work with. Whenever I have a question or need to order supplies everyone has been very courteous and my questions are answered quickly and orders are processed promptly. The terminal has also been dependable and user friendly.

I would not hesitate to recommend Frontline Processing to another merchant for their credit card processing needs.

Sincerely,

Braaten & Braaten, P.A.
